The Elden Ring was born on Vekta. In the year 1390, the Elden Ring was born. When the Elden Ring was born, the goddess Shiranui took it to its birth mother, the Forbidden Land, and planted it as the first-born of a new generation of destiny. Owing to its mysterious power, the Elden Ring called forth 10,000-year-old beasts to assist it in its journey. With the power of thousands of beasts, the Elden Ring swept through different lands on Vekta to destroy all things evil. Upon returning to the Forbidden Land, the Elden Ring grew in power until it became a complete power that it couldn't control. In an attempt to save the people of the Forbidden Land, the goddess Shiranui sacrificed herself, but the Elden Ring escaped. On Vekta, the Elden Ring is pursuing humanity, which has lost its way, and is corrupting all things. The Elden Ring is spreading monsters, violence, and deadly magics

throughout the world to rein in humanity. The Elden Ring is a myth that bears the pain of the Forbidden Land. The Elden Ring's strength, malice, and arrogance have become a source of pain for the Forbidden Land and the people of Vekta. The Elden Ring is spreading its wings and spreading its influence. It is said that the Elden Ring, even though it is an egg that escaped, can be born again on Vekta. Join the Elden Ring. Rise against the nightmares. The Association is truly proud of this accomplishment, which illustrates the ongoing dedication of the Kewaunee Clinic to its patients. “HeartSAFE® was designed to improve patient, provider and staff safety at heart-related events and activities by helping clinics manage scenarios that can result in harm to patients. To earn accreditation, the Kewaunee Clinic has been carefully reviewing its heart procedures, volunteering at hospital-associated educational sessions, and testing a number of its procedures,” says Amy Jager, MD, Director of the Kewaunee Clinic. “With a total score of 912 of a possible 1000, our certified HeartSAFE® Program embodies many of our value-based patients-centered and community-focused priorities, including being open-access and open house, meeting the standards set forth by our other certifications by collaborating more closely with the Joslin Diabetes Center or the Center for Urinary Incontinence, and providing coverage for all HRSA designated rural areas in which we practice or service as

required by law,” says Jager. “HeartSAFE® is required to be certified every two years. We updated it this past year to reflect our goal of certifying patients and procedures to share with our community. Our Kewaunee cardiologist, Dr. Mindy Lewis, noted that the patients as well as our clinic staff were proud of this achievement.” Throughout its 30 year history, the Kewaunee Heart Clinic has received favorable reception and recognition from the public for providing quality and access for its patients. “We are extremely proud of our accredited HeartSAFE® Program. Our Center represents the best and most dedicated healthcare providers in Wisconsin.” says Kewaunee Heart Clinic President, and founder Michael Lanke. Lanke also noted that the HeartSAFE® program helped ensure that the clinic would be prepared for any and all circumstances that might arise. “We have been impressed with Kewaunee Heart Clinic’s consistent commitment to patient safety and we fully support
